

# Front Loader

The Front Loader is a wall-mounted frame - simply fix direct to the wall. Where used conventionally, the cover screw can be fixed at the side. Where used within a recess, the cover screw needs to be fixed at the front. We advise using the Support Piece for larger applications and these should be no more than 1000mm apart.

## Vinyl Cutting Sizes

Add 106mm to the height and width (53mm on each side) of the finished size of the frame #4000 ie. For a frame that has overall measurements of 3000 x 2000mm, the vinyl should measure 3106 x 2106mm.
